THE INTERNATIONAL ROTARY FELLOWSHIP OF HEALTHCARE PROFESSIONALS (UK) TRUST FUND

TRUSTEES REPORT

FOR THE PERIOD ENDED 30TH JUNE 2026

The Board of Trustees presents its annual report together with the financial statements of the charity for the year ending 30 June 2026.

Objectives and Activities

The International Rotary Fellowship of Healthcare Professionals (IRFHP) operates in accordance with Rotary International policy, but is not an agency of, or controlled by, Rotary International.

IRFHP has 753 members from about 80 different countries – all have interest in healthcare. Being a Rotary organisation, IRFHP is able to access Rotary International's global network of over 1.4 million members and its various Action Groups and Fellowships – dedicated to Peace building, Literacy, Water and Sanitation, Maternal and Child Health, Environment and Economic Development.

IRFHP's objective is to build a global networking of health care professionals to address issues that affect the equitable provision of healthcare.

International Rotary Fellowship of Healthcare Professionals (UK) Trust Fund was registered as a Charity in England and Wales on 19th July 2021 (Charity number is 1195213) as the Fellowship's charity arm to raise funds 'to apply both the capital and income thereof to or for the relief of the poor and needy anywhere in the world or such other charitable purposes as the Board of Directors of IRFHP (hereafter referred as 'the Board') shall in duly constituted meeting from time to time direct.'

Achievements and Performance

Ukraine

As in previous years our main humanitarian activity was to support the victims of the Ukrainian war. The medical needs of Ukraine, a country at war, are complex and extensive.

The Board decided that as a small charity we should focus on an achievable project with measurable outcomes.

The Association of Neonatologists in Kiev appealed for support for premature babies.

The Trustees supported this for two reasons:

- even before the war Ukraine's birth rate was dropping. Since the beginning of the war the birth rate has dropped even further.
- babies born into war face immediate risk from inadequate healthcare, clean water, and nutrition support.

We decided, at the request of the Association of Neonatologists, to supply to hospitals low cost, high impact life-saving devices called Kangaroo Mother Care (KMC) wraps. (https://www.who.int/publications/m/item/kangaroo-mother-care--a-clinical-practice-guide).

During the year we commissioned the manufacture of 1000 KMC wraps from a reliable supplier in Moldova and delivered to the Institute at a cost of £27,240. Feedback from health professionals and mothers have been very encouraging.

Heart2Heart project in Egypt

This is project we have supported previously. It offers non-invasive, high-tech surgery to children with life threatening heart conditions. We were pleased that we were able to support this with a donation of £1,645.

Tanzania

We donated £1,859 to support children in primary schools on an island inn Lake Victoria.

International profile

In June 2026, the Trustees had the opportunity to highlight achievements at the Rotary International Convention in Taipei. At a special meeting, we heard presentations about the following topics:

- Delivery of mobile healthcare in Uganda - Mauri Okamoto-Kearney
- Prevention if tuberculosis in Nepal – by Scott Leckman
- Hernia Aid – making effective hernia repair affordable by Andrew Kingsnorth
- Kangaroo Mother Care – lessons learned from Ukraine by John Philip
- Preventable blindness – by Ann Evans

We were delighted to showcase our achievements to a global audience.

Public Benefit

The Trustees have referred to the Charity Commission's guidance on public benefit when reviewing the charity's aims, and when planning future activities. They are satisfied that the Trust's activities comply with the requirements.

There is a glut of medical information on social media and the internet some of which may be less than helpful to those who access them. The Charity and the Fellowship have used their network through online seminars to disseminate reliable information, often to an international audience.

Future plans

The Charity's focus remains bridging the gap in healthcare provisions between low- and middle-income countries and high-income countries.

The Ukrainian experience has shown us that although we are a small charity, we can gain credibility and recognition by focusing on sustainable programmes. The Trustees will apply these lessons to all future activities.

Financial Review

The Trust income comes from donations mainly from Rotary Clubs and individual donations via a Crowdfunding platform – Global Giving

https://www.globalgiving.org/donate/69873/international-rotary-fellowship-of-healthcare-professio/

The Trust's income has dropped significantly since the beginning of the Ukraine war. At the height of the Ukrainian war Rotary members made generous donations but as the war has dragged on donations have fallen significantly.

Despite the drop in income, the Trustees are content that its credibility and reputation within the Rotary family will help it to undertake small, meaningful humanitarian projects in the future.

Reserve Policy

It is the Trustees' policy to maintain a minimum reserves balance of £3,000 for contingencies.

Structure, governance and management

The International Fellowship of Healthcare Professionals operates within its own constitution and bylaws. It has an International Board elected annually. The term of office of the Board is from June to July. It is a requirement that the Fellowship hold an annual meeting usually in July to receive an annual report and accounts and elect officers. It is also a requirement that the Fellowship submit an annual report to Rotary International.

The Trust holds its funds to apply both the capital and income thereof to or for the relief of the poor and needy anywhere in the world or such other charitable purposes as the Board of Directors of IRFHP (hereafter referred as 'the Board') shall in duly constituted meeting from time to time direct.

The Board has the power to appoint Trustees or remove them. The Trustees are aware that they must act in all matters lawful independently and at the same time discharge their obligations to the Board. All Trust matters including minutes of meetings are submitted to the Board. All the current Trustees are members of the Board. This close link and accountability have helped the Trust to ensure good governance.

If a vacancy occurs among the Trustees, the continuing Trustees will initially discuss this. They will then make a recommendation to the Board which would accept or reject the recommendation. New Trustees will be made aware of their responsibilities, and they familiarise themselves with the governing document, administrative procedures and the objects of the charity.

The Trustees periodically review the risks that the charity faces and take steps to minimise such risks particularly those associated with the distribution and control of funds and health and safety issues.

Statement of Trustees' responsibilities

Charity law requires the trustees to prepare financial statements for each financial year in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards) and applicable law.

Under charity law the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charity and of its net incoming/outgoing resources for that period. In preparing these financial statements, they are required to:

- select suitable accounting policies and then apply them consistently.
- make judgments and estimates that are reasonable and prudent.
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue to operate.

The trustees are responsible for keeping adequate records that are sufficient to explain the charity's transactions and disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

For the year of reporting (2025-26) the Trustees have assessed the circumstances of the Trust and have opted to prepare receipts and payments accounts.

The Trustees' Report has been approved by the Trustees on 4 Nov 26 and signed on their behalf by:-

Chairman John Philip
On behalf of the Trustees
